

# Content of Thesis

**Full Name:** Christodoulidis Kyriakos   **AM:** 2016030025  
TECHNICAL UNIVERSITY OF CRETE

May 3, 2022

## Abstract

## Acknowledgments

## 1 Introduction

### 1.1 Thesis aim

### 1.2 Thesis Flowchart

## 2 Background

### 2.1 About Mocap clips

### 2.2 Related Work

## 3 First Approach, with GAN's

### 3.1 Dataset

### 3.2 Theory

### 3.3 Cons and Pros of this idea

## 4 Mocap Dataset Augmentation using pretrained models

### 4.1 About Dataset Augmentation

### 4.2 Available Pretrained Models

## 5 Implementation

### 5.1 Alpha-pose model

### 5.2 Origination and location estimation

### 5.3 Evaluation

## 6 Windows Application

### 6.1 About Tkinter library

### 6.2 About the Application

## 7 Future Approaches
